Ph.D. candidate with expertise in privacy-preserving machine learning and deep learning techniques. Skilled in developing and deploying ML models, big data frameworks, and cloud-based solutions. Seeking opportunities to leverage my expertise in AI-driven innovation and scalable systems development.

Work Experience

Ph.D. Candidate

Jan 2020 – Present

University of Kansas

- Researched privacy-preserving ML using lensless camera images.
- Designed deep learning models (PyTorch, TensorFlow) improving privacy compliance.
- Published IEEE conference papers.
- Collaborated with Physics Dept. on high-energy physics data exploration.
- Taught Python, OOP, Digital Logic, and Data Structures.

Solution Architect & Lead Software Engineer

Dec 2014 – Dec 2019

Renegade Insurance, Inc. & Cedargate Inc. (formerly Deerwalk Inc.)

- Engineered a Java-based insurance platform for real-time policy generation.
- Implemented CI/CD workflows and RESTful microservices.
- Integrated APIs with major U.S. insurance firms.
- Developed big data solutions using Hadoop MapReduce and Spark.
- Delivered real-time cloud processing with minimal latency.

Other Experiences

- Software Engineer: National Incubation & Research Center
- Tutor: 4G Engineering Solution
- Software Engineer: Yotcha Inc. Singapore

Skills & Competencies

- **ML:** PyTorch, TensorFlow, scikit-learn, CUDA, HPC, CNNs, GANs, Transformers, Diffusion Models
- **Big Data:** Hadoop, Spark, Kafka
- **Programming:** Python, Java, C, C++, Scala
- **Deployment:** Jenkins, CI/CD
- **Databases:** MySQL, MongoDB, Elasticsearch, Redis
- **Web:** RESTful API, Microservices

Courses

Data Science, Data Mining, Machine Learning, IoT, Privacy-Preserving Systems, Computer Vision

Education

University of Kansas
Tribhuvan University

Ph.D. in Computer Science
B.E. in Electronics & Communication

Jan 2020 – Present
Jan 2011 – Dec 2014

Publications

- **LiGANS: Harnessing Lensless Imaging and Generative AI** (Submitted, 2024)
- **RFLiC: Reconstruction Free Lensless Image Classification** (ICMLA, 2025)
- **PPLiC: Robust Privacy-Preserving Classification for Lensless Images** IEEE MASS 2024
- **Book: Basic Electronics Engineering, Heritage Publication**

Interests

- IoT and Electronics systems
- Writing blogs on engineering and robotics
- Art and Literature
